The Bamboo Forest,

China.

11th June, 2019

Dear humans,

Saving the pandas

We are a group of pandas in China. We are writing to ask you to save us. There are only 5,000 of us left. You do a lot of things that harm us. We will become extinct unless you stop destroying these things.

Firstly, you buy our very thick fur coats made from us. Therefore, we will keep dying. Hunters will keep killing us unless you stop buying thick fur coats.

Secondly, you keep destroying bamboo forests where we live. Therefore, our precious houses will be gone. We will have no place to live unless you stop destroying our houses.

Thirdly, you destroy our bamboos. You know very clearly that we depend on bamboos for survival. Without bamboos, we will starve to death. We will soon die of hunger.

We will become extinct unless you stop hunting us and destroying our homes. Take action before it's too late! Thanks for your co-operation!

Yours faithfully,

The tigers
